In the event that a bond is submitted, it shall be signed by the bidder and a duly authorized corporate surety acceptable to the Board of Supervisors.

PREVAILING WAGE SCALE
Pursuant to the provisions of the Labor Code of the State of California, the Board of Supervisors has ascertained the prevailing rate of per diem wages in dollars, based on a working day of eight hours, for each craft or type of workman or mechanic mentioned in the proposed contract under these specifications; and it will be required that not less than said rates be paid to all such workmen or mechanics employed or engaged upon the work.

The rates of per diem wages for each of the various classifications of work shall be the hereinafter set forth prevailing rates of hourly wages plus the hourly equivalent of any employer payments for health and welfare, pension, vacation and similar purposes, multiplied by eight (8) hours per day. It is hereby understood that in the event that workmen are employed less than eight hours per day, the per diem wages shall be deemed to be that fraction of the per diem wages herein established that the number of hours of employment bears to eight hours.

The Contractor shall, as a penalty to the State or political subdivision on whose behalf the contract is made or awarded, forfeit ten dollars for each calendar day, or portion thereof, for each workman paid less than the stipulated prevailing rates for any public work done under the contract by him or by any subcontractor under him, and the body awarding the contract shall cause to be inserted in the contract a stipulation to this effect.

Provided that overtime rates of pay for Saturdays, Sundays and holidays shall apply to those holidays as recognized in the collective bargaining agreements applicable to the particular craft, classification or type of workman employed on the project.

Provided that notwithstanding the general provision contained herein, Guards and Watchmen shall be paid one and one-half times the prevailing rate for overtime (overtime shall be time worked in excess of eight hours per day or forty hours per week), and the straight prevailing rate for time worked on Saturdays, Sundays, and where such time does not constitute overtime.

APPRENTICES—May be employed in conformity with Section 1777.5 of the California Labor Code.

WELDERS—Same wage scale as craft to which rigging is incidental.

FOREMEN—All foremen not herein separately classified shall be paid not less than 25 cents more than the hourly equivalent of the daily rate of the highest classification in which he has supervision in the six Basic Trades.
